Delaware State Police Investigating Increased Thefts of Motor Vehicles

The Delaware State Police wants to share the importance of securing your vehicles to combat the upward crime trend of motor vehicle thefts. Avoid taking a false security mindset, because a few seconds can cost you hours of stress and inconvenience, your vehicle, and more. Many of these complaints result from the owner leaving their vehicle unattended while running. These crimes are avoidable by simply taking the extra time to ensure that your vehicles are **turned off**, the key is **removed**, and the vehicle is **locked** while parked at work, gas stations, air pumps, shopping centers, and your residence.
