# Delaware State Police Announce Fingerprinting Process for Permit to Purchase Applicants

Edited November 15, 2025| 3:59 p.m.

The Delaware State Police, through the State Bureau of Identification (SBI), announces that individuals preparing to apply for a handgun qualified purchaser permit may now schedule fingerprint appointments with IdentoGO as part of the Permit to Purchase process.

Applicants are required to be fingerprinted as part of the background investigation conducted by SBI under the new Permit to Purchase law, which takes effect on November 16, 2025. The online application portal is anticipated to open next week, and individuals are encouraged to complete the fingerprinting and firearms safety training requirements in advance to avoid delays once it becomes available.

Fingerprinting services are available by appointment only through IdentoGO. When scheduling, applicants must use **Service Code 27S8N2** to ensure their prints are appropriately routed for the Permit to Purchase process.

Appointments can be made online at https://uenroll.identogo.com.

Individuals who have not yet completed the required firearms safety training with a certified instructor should do so before submitting their application. A list of pre-approved instructors is available on the Permit to Purchase website and is updated regularly as new instructors are pre-approved. Training courses that satisfy the requirements of the 11 Del

C. § 1448D offered by instructors who are not on the pre-approved list may also satisfy the statutory requirements. To find out if a course qualifies in advance of enrollment or whether a specific completed course qualifies, please contact the Permit to Purchase helpline at (302) 741-2800 during business hours or email DSP_SBIP2PMail@delaware.gov.

SBI will begin processing complete applications once the online application portal goes live. By law, SBI is required to issue or deny a permit within 30 days of the receipt of a fully complete application.

For more information about the Permit to Purchase program, including instructor certification and program requirements, visit our Permit to Purchase website and previous news releases:
