

## **Troop 6 – Jason Veasey**

Mr. Jason Veasey and his wife Theresa are 2nd generation owners of Pax Incorporated True Hardware in Prices Corner Wilmington, who have grown up in the hardware business. Jason knew at an early age that he wanted to follow in his father's footsteps and someday take over the family business, established in 1975. Pax True Value Hardware has been there for all of Wilmington's dreamers, DIYers, and problem solvers. They focus on assisting customers with all the tools of the trade for remodels and repairs, as well as the knowledge to help make any project possible. Their niche is that they treat every customer like a part of the family.

Mr. Veasey has been a consistent advocate for the Delaware law enforcement community for over a decade. On December 17, 2008, he graduated from the Delaware State Police Citizens Academy, and he has supported the DSP Canine Unit in the past with purchasing a K-9 vest. Mr. Veasey's lovely wife, Theresa, started as a part-time cashier, and the rest is history. Jason and Theresa enjoy raising their four beautiful young children, serving the community they grew up in, and look forward to growing the family business.
